**Week of May 14-18, 2012**

**Potential or Expected Press Stories, Significant Policy, Regulatory, or Legal Actions:**

**May 14** - Validated results of EPA's sampling of the latest sixteen home wells in Dimock, Pennsylvania, (the last of 61 homes sampled) continues to be shared with affected homeowners in one-on-one sessions for residents who requested meetings with EPA and ATSDR. Media coverage is expected to continue as additional residents receive their sampling results.
